Election/Restrictions

Newly submitted claims 97-107, 109-113 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the printed circuit board does not require selecting a composition and thickness of each of a dielectric coating and a conductive coating of a conformal EMI shield such that when applied to a surface of the printed wiring board having one of said at least one surface trace disposed thereon, said one surface trace has a desired characteristic impedance

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 97-107, 109-113 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

Claims 53-96 are allowed

Conclusion

This application is in condition for allowance except for the following formal matters:

Non-elected claims 97-107, 109-113.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
